FDA Commissioner Jane Henney  
5600 Fishers Lane, Room 14-71  
Rockville, MD

Dear Commissioner Henney,

I am writing concerning your practice of feeding blood and blood products from all mammals to other farm animals and used in animal feed and pet foods! Cows are not meat eaters by nature and they shouldn't be forced to eat dead animals! Porcine materials have been known to exhibit symptoms of central nervous system disease like TSE and those materials MUST not be fed to any animals or used in fertilizer or other products! Please put an end to this hazardous practice!

Sincerely,

Kathy Roth
